

SAFETY MATTERS

SAFE + SOUND WEEK

August 15-21, 2022

Safe + Sound Week is a nationwide event held each August in the United States that recognizes the successes of workplace health and safety programs and offers information and ideas on how to keep America's workers safe. Visit the [Safe + Sound Week webpage](#) to sign up to participate and to get [resources](#) for your safety + health program.

A key to staying Safe + Sound is having a strong safety culture. These are simply the attitudes and behaviors that employers and employees have about safety. The following are components of a good safety culture:

- Nothing at work is more important than safety – EVER
- Every individual is responsible, no matter their position
- Everyone looks for and shares ways to improve safety on the job
- Management demonstrates safety is the top priority in words and actions
- Stopping work for safety concerns is never frowned upon or punished
