

SAFETY MATTERS

BACK TO SCHOOL – WATCH FOR KIDS!

Some schools are already in session and more will be starting in the coming weeks. This means a lot of young children will be waiting for the bus and walking to school in the morning. Please remember these tips to keep kids safe on your route:

- Children are small and often can't be easily seen by drivers.
- Children are often distracted by electronics and may not be aware of cars or trucks on the road.
- Children are unpredictable and may approach your truck without warning.
- Reduce your speed and cover the brake in neighborhoods, and near schools, and childcare centers.
- Always observe school zone speed limits.
- Work safely and stay alert for the kids going to school.
