Orderly – Make it a habit to put items back where they belong. Keep your tools organized and easy to find. Have a place for everything and everything in its place. Keep your files organized and easy to find when needed. Ensure items stored in the cab of your truck are secured and stored properly!

SAFE – Safe is the benefit of keeping your work area clean and orderly. You will avoid:

- Slip trips and Falls
- Stress
- Bad visibility
- Less items that can serve as projectiles in the cab or rolling behind the brake pedal.
- Most importantly - getting hurt.
