SAFETY

MONDAY

Seatbelt Safety

Wearing a seatbelt is one of the simplest and most effective ways to protect yourself on the road.

Keeps you safe

Helps you make it
home each day

Shows you're a pro

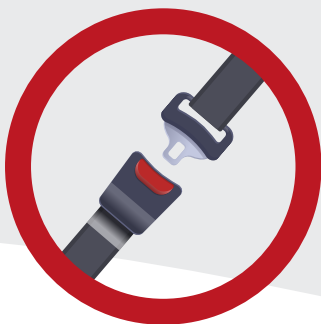

Why Buckling Up Matters

- Reduces your risk of fatal injury by 45–60% (CDC)
- Cuts your risk of serious injury by about 50% (U.S. DOT)
- Prevents ejection from the cab, which is almost always fatal
- Drivers without seatbelts are 30x more likely to be ejected

When You Don't Buckle Up

- You're **violating federal regulation 49 CFR 392.16**
- You risk your **CDL and employment opportunities**
- Your company could receive **8 CSA severity points** for "Unsafe Driving"
- Most importantly: **you're putting your life and your loved ones at risk!**
