

STAYING SAFE ON THE ROADS THIS SUMMER

Summer brings more sun, travel, and outdoor activity.

- Increased pedestrian, bicycle, and motorcycle traffic
- More construction zones and roadway changes
- Higher likelihood of distracted or rushed drivers, cyclists, and pedestrians

STAY SAFE THIS SUMMER

Allow extra time and space – be patient and expect the unexpected

Maintain 360° awareness around your vehicle at all times

Never assume others see you – if you're unsure, stop and check

Use extra caution in construction zones where conditions can change quickly

Slow down near parks, schools, and buses, and always obey school bus signals

Give yourself time, stay alert, and be patient so everyone gets where they're going safely this summer.
